

## INTERNSHIP COMPLETION CERTIFICATE

13 October 2020

To whom it may concern,

This document is to certify that Mehieddine Zeidan, who is completing his Bachelor of Engineering in Computer and Communications Engineering at the American University of Beirut, successfully completed a summer internship at N3XT Sports Europe SL.

From the period starting June 15 and ending August 15, 2020, Mehieddine interned with the senior management team and digital director of the company. During his brief period at N3XT Sports, Mehieddine demonstrated a hard-working attitude with a wonderful personality and demeanor towards his colleagues. In a fast-changing environment such as that at our company, he showed that he was comfortable working in ambiguity and pushing projects forward proactively with his team.

Specifically, Mehieddine had a direct impact on the delivery of several key projects for the company on the data & digital side. This included an online tool for digital assessment, which we successfully published in October 2020. He also contributed to several other projects, such as launching a website for a new consulting initiative we have built in the summer, and integrations between our database and some data sources. Speaking on behalf of the whole company, we thoroughly enjoyed working with Mehieddine as we did enjoy getting to know him personally. He was always approachable, and shared his personality and character with us, at a sensitive time for Lebanon with the economic & health crisis as well as the port accident.

We wish him all the success in his final year of the degree and cannot wait to see him enter the professional workforce in the coming years.

I remain available for any follow up questions, comments or clarifications that may be needed.
